CAREER OBJECTIVE

Aspiring Full-Stack Developer with a passion for building responsive and scalable web applications. Looking to contribute to dynamic development teams and grow as a software engineer

PROJECT

QR Code Generator
Technologies Used: HTML,CSS,Javascript,Api Integration.
Abstract : Created a web application for generating QR codes, integrating an external API to dynamically generate codes based on user input.

To Do List
Technologies Used: React js,Tailwind Css.
Abstract : Designed a task management web app that enables users to assign and track daily tasks, with a visual indication for completed tasks.

Netflix Clone
Technologies Used: React js , Api Integration.
Abstract : Replicated a Netflix-inspired web app featuring online movie streaming and enhanced functionalities.

Expense Tracker
Technologies Used: React js, Tailwind Css.
Abstract : Created an Expense Tracker app using React.js Tailwind CSS to track and manage personal expenses. The app allows users to add, categorize, and view their expenses seamlessly.
